

Engineered Fibreglass Solutions

Corporate Brochure

Built for industrial performance,
durability and progress.

FRP Gratings

Strong, lightweight
and corrosion-resistant
grating solutions.

Roofing Products

Durable profile sheets
and translucent panels
for industrial and commercial
applications.

Fibreglass Tanks

Reliable storage and
process solutions for
chemicals and water
treatment.

Custom Fabrication

Tailored FRP products
built to specification
for diverse industrial needs.

About Hi-Fibro Products

Manufacturer and fabricator of industrial fibreglass equipment and solutions.

Hi-Fibro Products manufactures and fabricates a wide range of fibreglass (FRP) and thermoplastic industrial equipment and solutions for commercial and industrial applications. With decades of experience, we deliver durable, high-performance products engineered to meet the demanding requirements of chemical processing, water treatment, environmental control and various industrial sectors.

Core Capabilities

- ✓ Chemical storage tanks
- ✓ Processing vessels
- ✓ FRP/PP/PVC/PPGL/HDPE/LDPE/PVDF/PPH fabrication
- ✓ Scrubbers and ducting systems
- ✓ FRP gratings and roofing
- ✓ Custom moulding and fabrication

Durable
Fibreglass Solutions
for a Stronger
Tomorrow

Materials Expertise

Trusted Materials for Demanding Environments

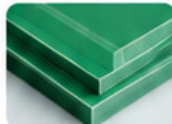

FRP
Fibreglass
Reinforced Plastic

PP
Polypropylene

PVC
Polyvinyl
Chloride

HDPE
High-Density
Polyethylene

LDPE
Low-Density
Polyethylene

PVDF
Polyvinylidene
Fluoride

PPH
Polypropylene
Homopolymer

30+ Years Expertise

Decades of experience in fibreglass fabrication and industrial solutions.

Reliable Industrial Solutions

Durable, high-performance products for demanding environments.

Custom-Built to Requirement

Tailored design and fabrication to meet your application needs.

Dimensions, profiles and specifications available on request.

Industries We Serve

Reliable FRP solutions for demanding industrial environments.

Solutions Across Critical Industries

Oil & Gas

FRP solutions for upstream, midstream and downstream applications.

Chemical & Petrochemical

Corrosion-resistant products for harsh chemical environments.

Water & Wastewater

Durable solutions for water treatment, distribution and effluent management.

Power & Energy

FRP products for power generation, transmission and renewable energy.

Infrastructure

Lightweight, durable solutions for public and commercial infrastructure projects.

General Manufacturing

Versatile FRP products for a wide range of industrial applications.

Why Choose Hi-Fibro?

Proven products.
Trusted performance.
A partner for your progress.

Corrosion-resistant solutions

Engineered for harsh environments and long service life.

Low maintenance

Reduce downtime and lifecycle costs with durable FRP.

Custom engineered products

Tailored to your specifications and application needs.

Durable and long-lasting

Built for consistent performance in demanding conditions.

Quality-focused execution

Strict quality control for reliable and high-performance products.

Reliable technical support

Expert guidance from specification to after-sales support.

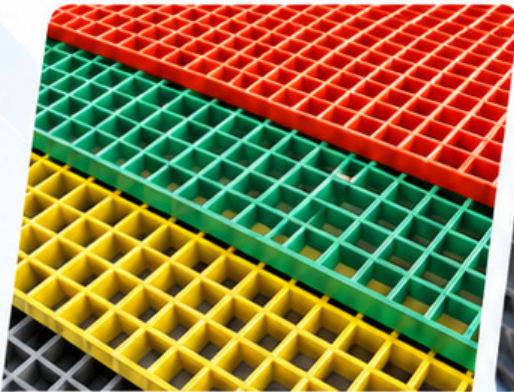

Dimensions, profiles and specifications available on request.

Product Portfolio

Engineered fibreglass solutions for a wide range of applications.

Reliable
Products for
Industrial Progress

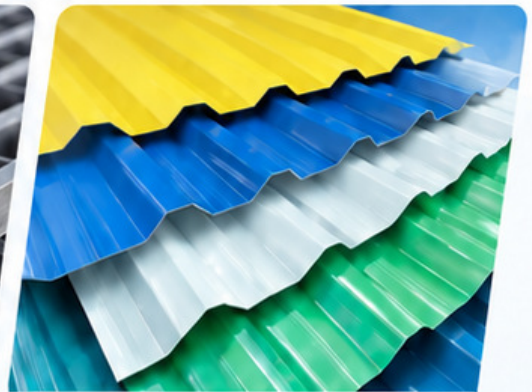

FRP Moulded Gratings

Corrosion-resistant grating panels for walkways, platforms and trench covers.

FRP Pultruded Gratings

High-strength structural grating for heavy-duty industrial use.

Roofing Products

Profile sheets, corrugated sheets and translucent skylight panels.

Fibreglass Tanks & Vessels

Storage and process solutions for chemicals and water treatment.

Custom Moulding & Fabrication

Tailored FRP products built to specification.

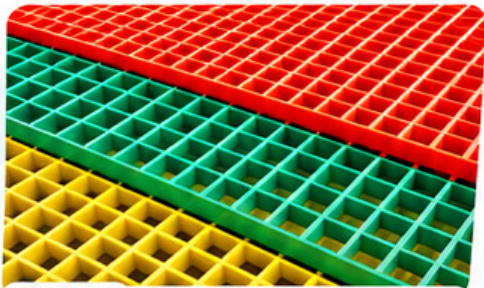

Blowers, Ducts & Scrubber Systems

Process ventilation and corrosion-resistant handling systems.

FRP Gratings & Roofing Solutions

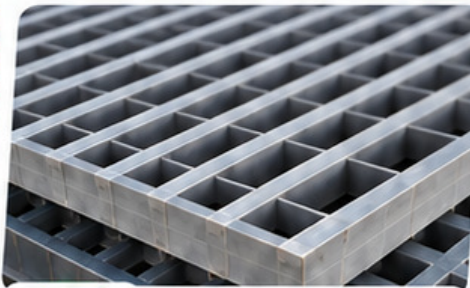

Durable, high-performance fibreglass solutions for industrial environments.

Reliable
Products for
Industrial Progress

FRP Moulded Gratings

Corrosion-resistant grating panels for walkways, platforms and trench covers.

FRP Pultruded Gratings

High-strength structural grating for heavy-duty industrial use.

Walkway Gratings

Slip-resistant and durable solutions for safe access in industrial areas.

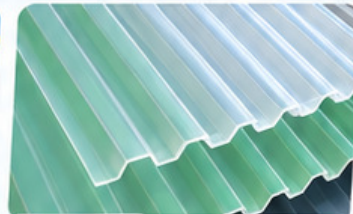

Industrial Flooring

Strong, slip-resistant flooring for harsh and high-traffic environments.

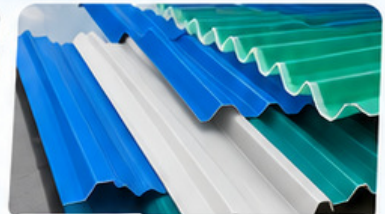

Roofing Sheets

Durable FRP roofing sheets with excellent weather resistance.

Skylight Panels

Translucent FRP panels for natural lighting in industrial buildings.

Profile Sheets

Custom profile sheets for cladding, roofing and sidewall applications.

Key Benefits

Anti-corrosive

High strength-to-weight ratio

Slip-resistant

Long service life

Weather-resistant

Suitable for industrial environments

Typical Applications

Platforms

Trenches

Walkways

Rooftops

Sheds

Process Plants

Dimensions, profiles and specifications available on request.

Tanks, Vessels & Custom Fabrication

Reliable FRP solutions for storage, processing and industrial applications.

Engineered
for a Cleaner,
Safer Tomorrow

Fibreglass Tanks

Durable FRP tanks for storage of chemicals, water and process fluids in demanding environments.

Corrosion resistant

Custom dimensions

Long service life

Processing Vessels

FRP process vessels, scrubbers and columns designed for chemical processing and environmental applications.

Process suitability

Custom engineering

High chemical resistance

Blowers & Ducting Systems

FRP blowers, ducts, scrubbers and ventilation systems for corrosion-resistant air handling and fume control.

Corrosion resistant

Efficient air handling

Durable construction

Custom Moulding & Fabrication

Tailored FRP, PP and PVC components manufactured to specification for industrial applications.

Custom fabrication

Wide range of profiles

FRP / PP / PVC solutions

Dimensions, profiles and specifications available on request.

Project Highlights & Quality Commitment

Proven FRP solutions delivering real value across diverse industries.

Real Projects
Real Performance
A Stronger Tomorrow

FRP Grating Structures

Safe, durable and corrosion-resistant grating solutions for platforms, walkways and trench covers.

FRP Roofing Solutions

High-performance profile and corrugated sheets for industrial, commercial and skylight applications.

FRP Tank Installations

Custom-designed storage and process tanks for chemicals, water treatment and industrial applications.

Corrosion-Resistant Systems

FRP ducts, scrubbers and process equipment for reliable and long-term performance in harsh environments.

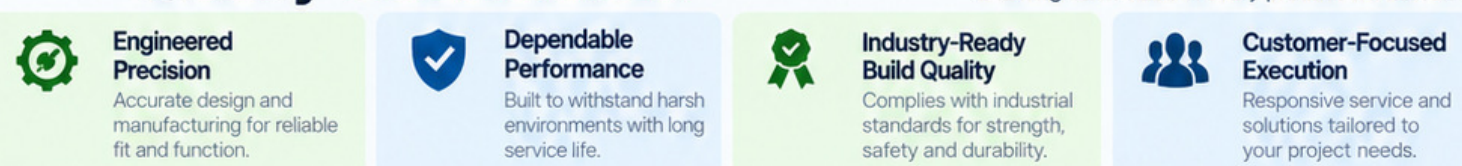

Our Process

From concept to completion, a streamlined approach for successful project delivery.

Quality Commitment

Consistent quality, reliable performance and long-term value in every product we deliver.

Let's Build Durable Industrial Solutions

Custom-engineered fibreglass products for a stronger, safer and more sustainable industrial tomorrow.
